Synthetic candidate resume

Mai Anh Nguyen

UI/UX Designer

Email: cv09@example.com

Address: Da Nang

Preferred location: Nha Trang

Job title: UI/UX Designer

Professional field: Product Design

Professional summary

I am a UI/UX Designer with 2 years of practice in user research, interface design and interactive prototypes. I want to design clear digital products and work closely with development teams.

Technical skills

Figma; UX; UI; HTML; CSS; Agile

Experience

2 years of practice in simulated projects.

- Created user journeys, wireframes and high-fidelity interfaces in Figma.
- Planned usability sessions, summarized feedback and improved navigation flows.
- Collaborated in an Agile team and used HTML/CSS knowledge for implementation handoff.

Selected project

Simulated travel booking app: customer research, mobile screens, clickable prototype and usability findings.

Education

Bachelor-level IT studies at a fictional training institution. All education and work history here is synthetic.
